Departure Information for Boarding Clients

Your pet will undoubtedly be happy to see you after your time away. Following a few simple steps will help ease the transition back

- Overexcitement may cause your pet to act thirsty and pant a lot. Please give him/her some time to settle down before giving water. A few ice cubes may help to tie them over for a while if necessary.
- Do not feed your pet until he/she has had an opportunity to settle down. This may take a few hours.

Excessive eating or drinking may lead to digestive issues, an upset stomach and bloating.

- Walk your pet upon arrival or allow access to your yard areas. Their excitement to see you may cause a change in urination or bowel movements from their normal schedule.
- Welcome your pet home with some personalized attention such as play time, petting, brushing etc.
- Kennel life can be very exciting! It's common for dogs to leave exhausted but happy. It's not unusual for them to sleep a lot the first couple days after returning home.
- Re-establish home patterns by following a normal schedule. Pets love to follow a schedule as it makes them feel safe and secure.
- Cats need time to adjust to being home after boarding as well. Please be sure to keep them in the house for a few days before allowing them to roam outside.

We thank you for the opportunity to care for your pets!

Please be assured that we do everything possible to ensure that they have an enjoyable and safe boarding experience!
