## Departure Information for Boarding Clients

Your pet will undoubtedly be happy to see you after your time away. Following a few simple steps will help ease the transition back

- Overexcitement may cause your pet to act thirsty and pant a lot. Please give him/her some time to settle down before giving water. A few ice cubes may help to tie them over for a while if necessary.
- Do not feed your pet until he/she has had an opportunity to settle down. This may take a few hours.

Excessive eating or drinking may lead to digestive issues, an upset stomach and bloating.

- Walk your pet upon arrival or allow access to your yard areas. Their excitement to see you may cause a change in urination or bowel movements from their normal schedule.
- Welcome your pet home with some personalized attention such as play time, petting, brushing etc.
- Kennel life can be very exciting! It's common for dogs to leave exhausted but happy. It's not unusual for them to sleep a lot the first couple days after returning home.
- Re-establish home patterns by following a normal schedule. Pets love to follow a schedule as it makes them feel safe and secure.
- Cats need time to adjust to being home after boarding as well. Please be sure to keep them in the house for a few days before allowing them to roam outside.

**We thank you for the opportunity to care for your pets!**

**Please be assured that we do everything possible to ensure that they have an enjoyable and safe boarding experience!**
